Art Unit: 1714

Claim 14 is objected to because of the following informalities: Applicants' intend claim 14 to be an independent claim. The reference by claim 14 to claim 13 makes it unclear as to whether claim 14 is indeed independent. Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 13 and 14 recite component c wherein "at least one of the groups R1, R2, R3 or R4 is ...". This language makes it unclear as to whether the species E1 through E3 require an R group as defined in the last line of the claims.

Appropriate clarification is required.

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 recites "obtainable by" at line 4. This language is seen as rendering the claim indefinite.

Appropriate correction is required.
